December 2017

Hey there!

I'm Mikaela, and I'm here to help you start and grow a business of your own.

Are you finding it difficult to start because you're overwhelmed, under-skilled, unsure or unprepared? Are you determined to create a business that allows you more flexibility and freedom in your life and career, but have no idea where to even begin?

I'll help you cut through the bullshit so you can start creating your dream business TODAY. No more daydreaming or procrastinating, it's time to jump in.

How to use these Monthly Planning Sheets

These sheets are best used in conjunction with the **Makers: Plan Your Year** system (found in the [free resource library](#)) and the **Makers Wall Planner**. The key is to have one monthly priority that directly relates to your quarterly goal, which feeds into your overall yearly focus.

You can use these sheets digitally (simply click in the box and start typing, then save your PDF named as whatever month you're working on), however I like printing the sheet out, laminating it and re-using it for each month of the year with whiteboard markers. Or you could print out 12 sheets - one for each month - to keep a record of what you've accomplished.

Be sure to pin up your **Monthly Planning Sheet** somewhere prominent in your workspace so you can refer to it easily and have it as a daily visual reminder of what you are working towards for the month.

Good luck!
